COMMENTS

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: claim 1, the independent claim defines an ironing device for ironing uncreased trousers. The device comprises a supporting framework supporting an ironing head including means for supporting a pair of trousers a pelvis level and gripping means for gripping the bottom portions of trousers. The gripper is coupled to a steam circuit for heating the gripping means and to a steaming duct for which steam is provided by a steaming drum. The dependent claims further limit the structure of the ironing device of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hostetler et al. illustrates an expandable form for insertion in trousers. Frushtick, Mino and Zimmermann illustrate a trouser presser including a cuff expander for the trousers and press platens for pressing the trousers. Dahman illustrate a trouser drying device including a hair dryer for placement within the pants and clamps for the bottoms of the trousers. Everett illustrates a carousel including trouser pressers and a multiple clamps movable toward and away from the pants for clamping the pants before the ironing process.
